

The ED Rap

We'd like to tell you about adding 'ed'.

It's as easy as 1. 2. 3.

When a word ends in 'e' you just have to add 'd'.

Adding 'ed' to a word makes it past tense heard.

When adding 'ed' to a word ending in 'y' you just change the 'y' to an 'i'.

When you add 'ed' to the base word there's generally no change that has occurred.

If the word has one syllable doubling the last letter make no fool.

The best now let's focus on the rest.
